Burleigh Brewing's 'Bit On The Side' department has been busy of late, working on a black coffee lager, unique to the Australian market. Called Black Giraffe, it is the result of a collaboration between Burleigh Brewing and Zarraffa's Coffee that saw the brewer combine 100 kilos of 100% rainforest alliance coffee beans to create a locally-produced rich and flavoursome black coffee lager. Black Giraffe is packaged in dinner-size 650ml screen-printed collectable bottles which are as unique as the brew itself.
